Talaba qo‘llanmasi

Tizimga kirish, imtihon topshirish, javob berish, yuborish
va tez-tez uchraydigan muammolarni hal qilish

Versiya 1.3 · 2026-yil oktabr

Ajou University in Tashkent · AUT Secure Exam

> Toshkentdagi Ajou universiteti talabalari uchun. Birinchi imtihondan oldin 1–6-bo‘limlarni o‘qing. Har bir imtihon uchun **kirish kodini** professoringiz beradi.

Mundarija

1. Nima kerak
2. Ilovani o‘rnatish
3. Hisob yaratish yoki kirish
4. Imtihonga qo‘shilish
5. Imtihonni boshlash
6. Savollarga javob berish
7. Imtihon qoidalari (halollik)
8. Yuborish va natijani ko‘rish
9. Muammo yuzaga kelsa
10. Ingliz tili amaliyoti
11. Ko‘p beriladigan savollar

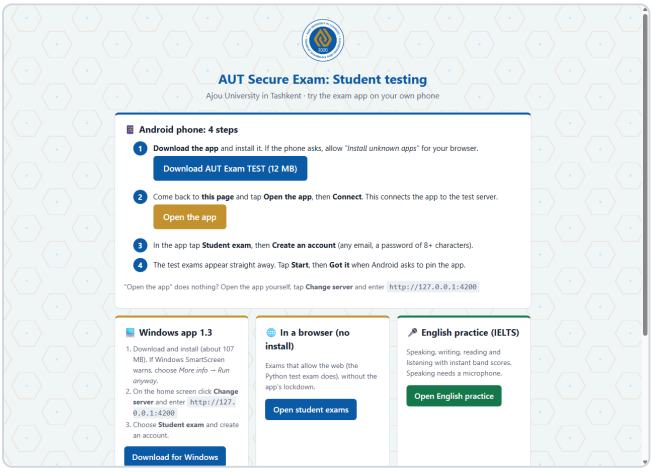

1. Nima kerak

Qurilma	Ilova	Izoh
Windows noutbuk yoki kompyuter	**AUT Secure Exam** (Windows ilovasi)	Uzoq imtihonlar va dasturlash savollari uchun eng qulay. To‘liq ekranli himoya.
Android telefon yoki planshet (Android 8+)	**AUT Secure Exam** (Android ilovasi)	Imtihon vaqtida ilova ekranga mahkamlanadi.
Istalgan brauzer	`https://exam.ajou.uz/student/`	Faqat professor vebda ruxsat bergan imtihonlar uchun (himoyasiz).

- Barqaror internet. Qisqa uzilish muammo emas: javoblar qurilmangizda saqlanadi va aloqa tiklanganda yuboriladi.
- Qurilmani quvvatlang va **Bezovta qilmaslik** rejimini yoqing.
- Universitet emailingiz va kamida 8 belgidan iborat parol.

2. Ilovani o‘rnatish

Qurilmangizda **https://exam.ajou.uz/downloads/** sahifasini oching va ilovani tanlang.

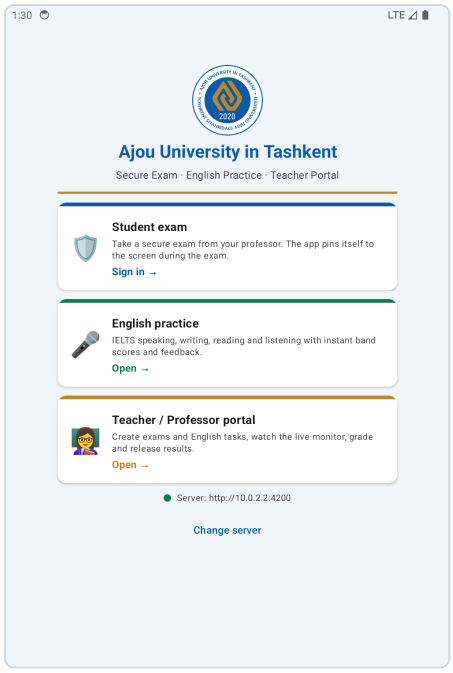

Yuklab olish sahifasi. (Sinov vaqtida o‘qituvchi sinov havolasini berishi mumkin.)

Android

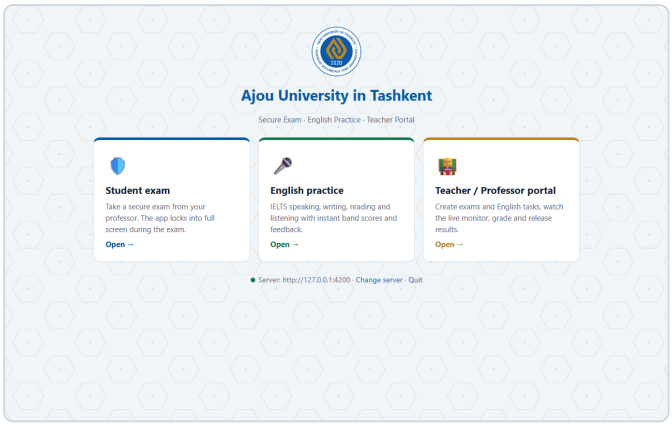

1. **Download for Android** ni bosing. Telefon so‘rasa, brauzeringiz uchun *Noma’lum ilovalarni o‘rnatish* ga ruxsat bering.
2. Yuklangan faylni oching va **O‘rnatish** ni bosing.
3. **AUT Secure Exam** ni oching. Server ulangan bo‘lsa, bosh ekranda **yashil nuqta** ko‘rinadi.
4. Faqat sinov versiyasi: sinov sahifasida **Open the app**, so‘ng **Connect** ni bosing.

Windows

1. **Download for Windows** ni bosing va o‘rnatuvchini ishga tushiring. Windows SmartScreen ogohlantirsa: *Подробнее/More info → Run anyway*.
2. Ish stolidan **AUT Secure Exam** ni oching.

Android: bosh ekran

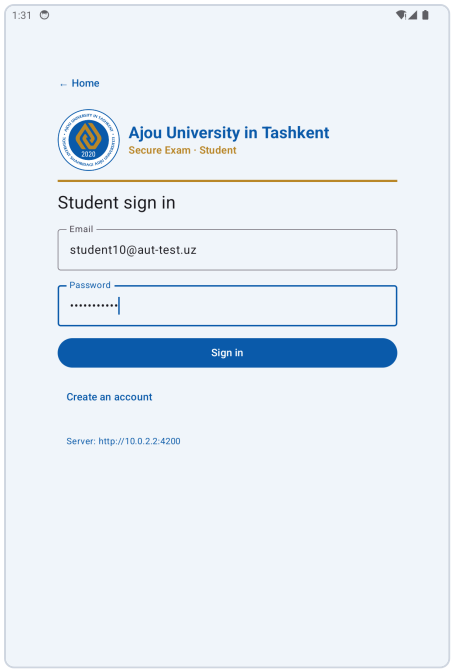

Windows: bosh ekran

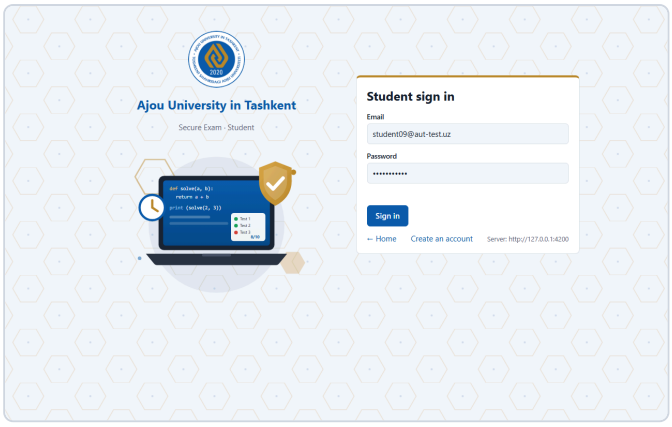

Ikkala ilovada ham uchta tanlov bor: **Student exam** (talaba imtihoni), **English practice** (ingliz tili) va **Teacher / Professor portal** (xodimlar uchun). Server manzili pastda ko‘rsatiladi; odatda uni o‘zgartirish shart emas.

3. Hisob yaratish yoki kirish

1. **Student exam** ni bosing.
2. Birinchi marta: **Create an account** ni bosing, to‘liq ismingiz, talaba raqamingiz, universitet emailingiz va parol (8+ belgi) kiriting, so‘ng **Create account**.
3. Keyingi safar: email va parolni kiriting va **Sign in** ni bosing.

Android: kirish

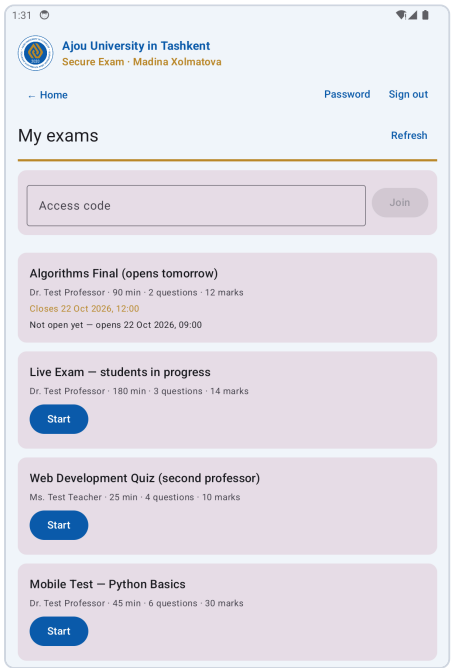

Windows: kirish

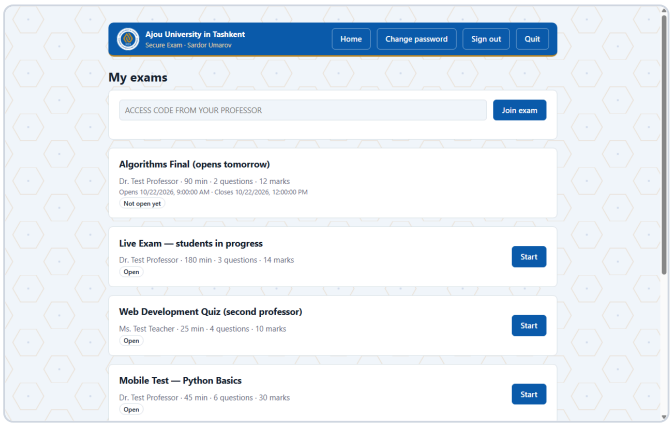

> **10 marta noto‘g‘ri parol** kiritilsa, hisob 15 daqiqaga bloklanadi (parolni taxmin qilishdan himoya). Parolni unutdingizmi? Professor yoki administratordan uni tiklashni so‘rang. Parolni o‘zgartirish uchun imtihonlar ro‘yxatida **Password** (Android) yoki **Change password** (Windows) ni bosing; boshqa qurilmalaringizdan chiqiladi.

4. Imtihonga qo‘shilish

Professor bergan **kirish kodini** (masalan, `WCEJEC`) **My exams** sahifasining yuqorisidagi maydonga yozing va **Join** ni bosing. Professor sizni qo‘shgan imtihonlar o‘zi chiqadi.

Android: My exams

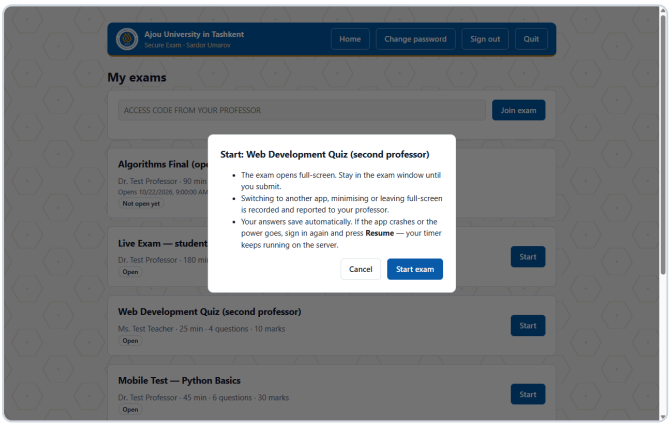

Windows: My exams

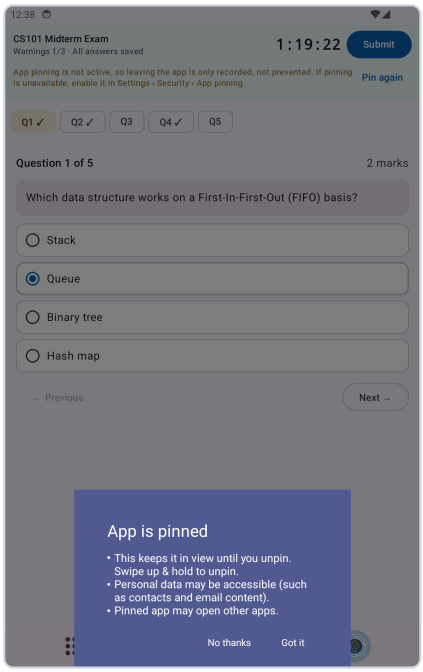

Ko‘rinadigan yozuv	Ma’nosi
Start	Imtihon ochiq. Boshlash mumkin.
Not open yet — opens …	Ko‘rsatilgan vaqtda qayting.
Resume exam	Boshlagansiz, lekin yubormagansiz (masalan, ilova yopildi). Vaqt davom etgan.
Submitted · awaiting results	Tugadi. Natijani professor e’lon qiladi.
View result	Natijalar e’lon qilingan.
Closed	Imtihon vaqti tugagan.

5. Imtihonni boshlash

1. **Start** ni bosing, qoidalarni o‘qing, so‘ng **Start exam**.
2. **Android:** telefon ilovani mahkamlashni so‘raydi. **Got it** ni bosing. "No thanks" ni bosmang.
3. **Windows:** imtihon to‘liq ekranda ochiladi. Yubormaguningizcha imtihon oynasidan chiqmang.

Boshlashdan oldingi qoidalar

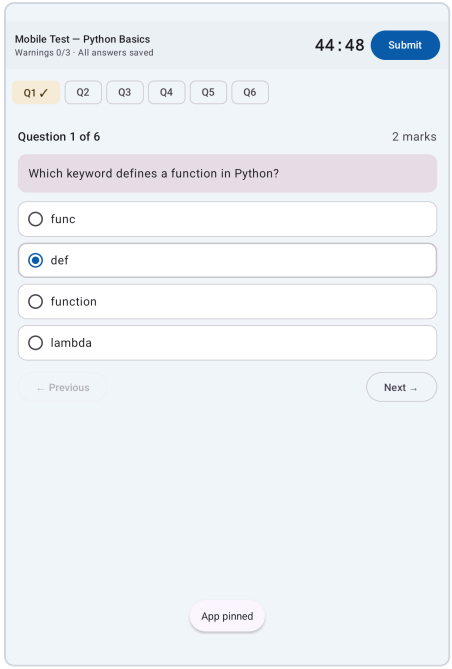

Android: Got it ni bosing

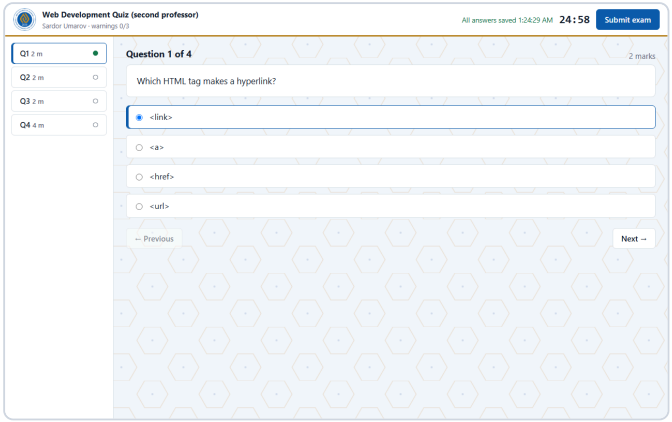

> Taymer **Start exam** bosilganda boshlanadi va serverda ishlaydi. Ilovani yopish uni **to‘xtatmaydi**.

6. Savollarga javob berish

- Yuqoridagi savol tugmalari (**Q1, Q2 …**) yoki **Next / Previous** dan foydalaning. ✓ belgisi javob berilgan savollarni bildiradi.
- **Test savoli:** bitta variantni tanlang. **Yozma savol:** javobni yozing. **Dasturlash:** dasturni muharrirda yozing.
- Javoblar o‘zgartirilgandan taxminan bir soniyadan keyin **avtomatik saqlanadi**. Yuqorida *All answers saved* ko‘rinadi.
- Oxirgi 5 daqiqada taymer qizil rangga o‘tadi.

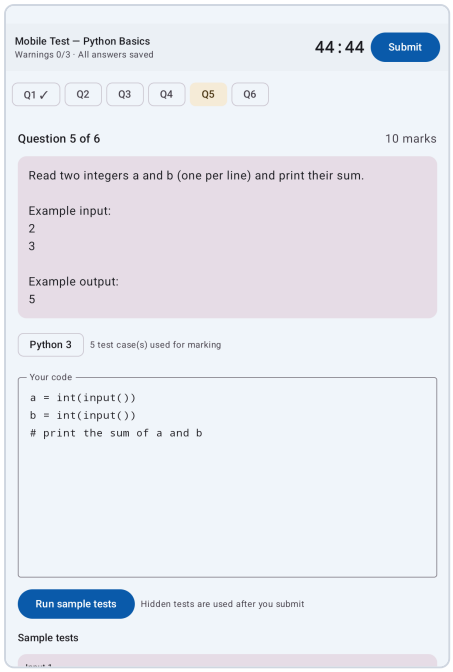

Android: test savoli

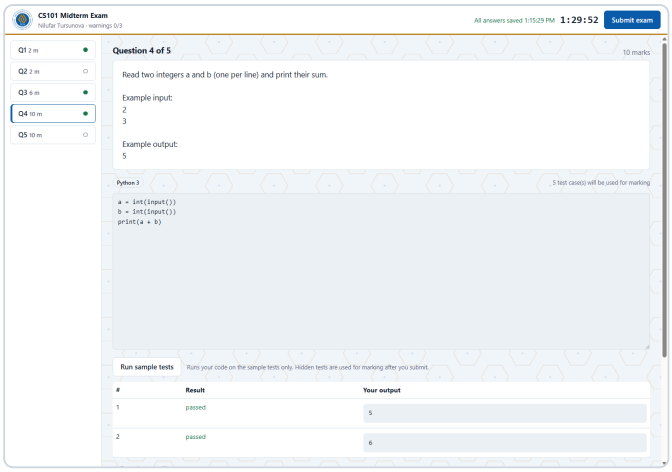

Windows: savol

Dasturlash savollari

Topshiriqni va **namunaviy testlarni** (kirish va kutilgan natija) o‘qing. Dasturni tekshirish uchun **Run sample tests** ni bosing. Yuborgandan keyin baholashda yashirin testlar ham ishlatiladi: o‘tgan har bir test o‘z ballini beradi.

Android: dasturlash savoli

Windows: namunaviy testlar o‘tdi

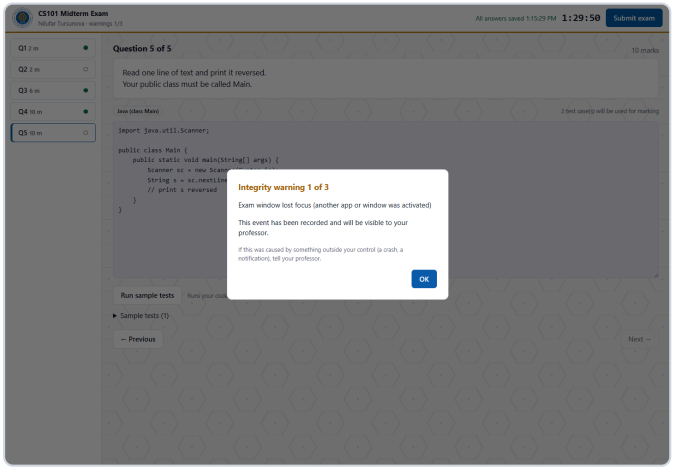

> Sinov serverida kodni ishga tushirish o‘chirilgan bo‘lishi mumkin: kodni baribir yozib yuborasiz, uni professor baholaydi.

7. Imtihon qoidalari (halollik)

Quyidagi harakatlar vaqti bilan qayd etiladi va professorga yuboriladi:

- imtihon ilovasidan chiqish yoki boshqa ilovani ochish; oynalarni almashtirish (Windows);
- ilovani mahkamlashdan chiqarish, ekranni bo‘lish, bildirishnomalar panelini uzoq ochib turish (Android);
- imtihondan tashqarida nusxalangan matnni qo‘yish (bu bloklanadi).

Siz *Integrity warning 1 of 3* kabi ogohlantirishni ko‘rasiz. Nima bo‘lishini professor hal qiladi; ba’zi imtihonlar oxirgi ogohlantirishdan keyin **avtomatik yuboriladi**.

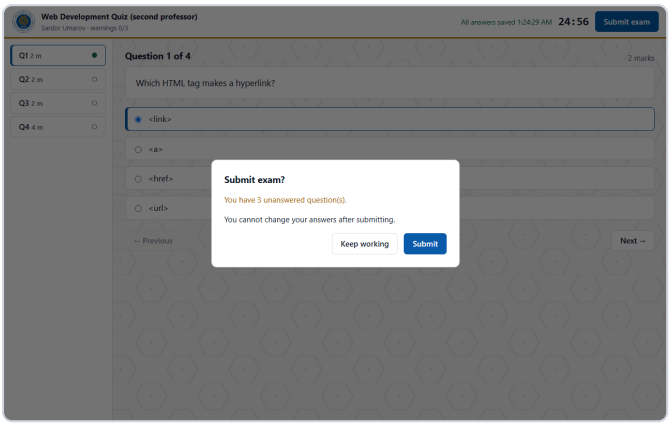

Halollik ogohlantirishi

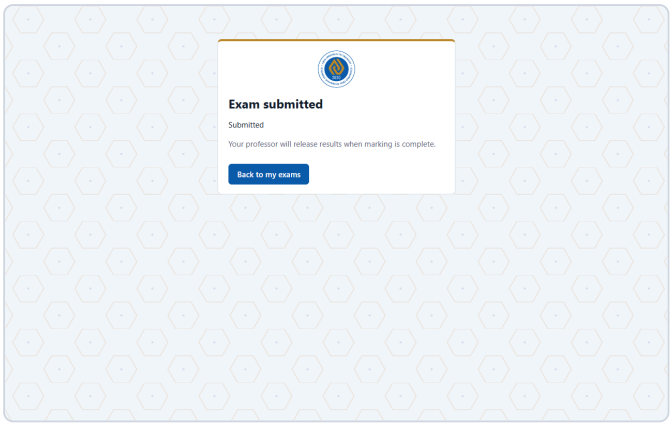

> Agar sizga bog‘liq bo‘lmagan voqea yuz bersa (qo‘ng‘iroq, ilova ishdan chiqishi), imtihondan so‘ng darhol professorga ayting.

8. Yuborish va natijani ko‘rish

1. **Submit** ni bosing. Ilova nechta savolga javob berilmaganini aytadi.
2. Tasdiqlash uchun yana **Submit** ni bosing. Shundan keyin javoblarni o‘zgartirib bo‘lmaydi.
3. Vaqt tugaganda imtihon saqlangan javoblaringiz bilan avtomatik yuboriladi.

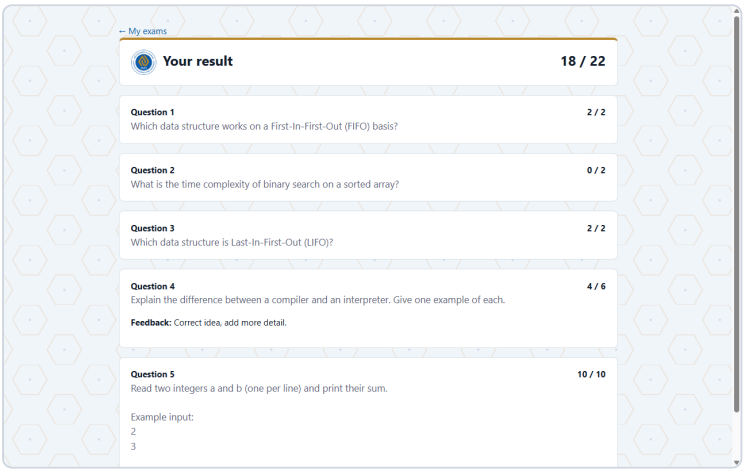

Yuborishni tasdiqlash

Imtihon yuborildi

Professor natijalarni e’lon qilganda imtihonda **View result** paydo bo‘ladi: umumiy ball, har bir savol bali, o‘tgan testlar va izohlar.

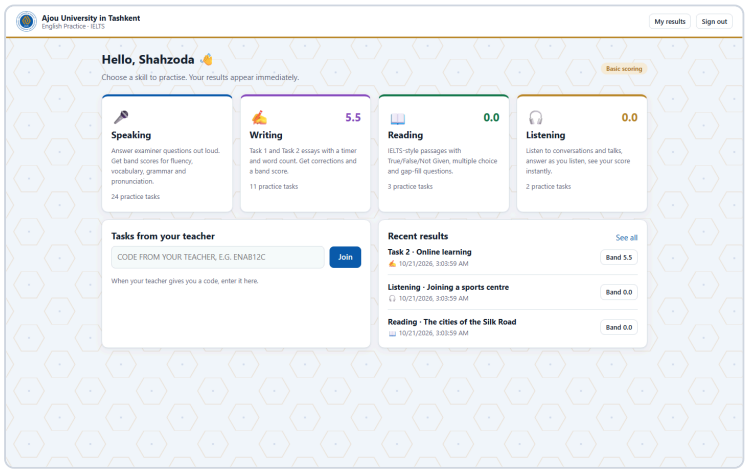

E’lon qilingan natija

9. Muammo yuzaga kelsa

Muammo	Nima qilish kerak
Ilova yopildi, batareya tugadi yoki kompyuter qayta yondi	Ilovani oching, kiring, **Resume exam** ni bosing. Saqlangan javoblar va qolgan vaqt serverda saqlanadi.
"Offline — keep working"	Javob berishda davom eting. Javoblar qurilmada saqlanadi va aloqa tiklanganda yuboriladi. Ilovani yopmang.
Bosh ekranda qizil nuqta: "Server not reachable"	Wi-Fi yoki mobil internetni tekshiring. Ostidagi xabar sababini aytadi (masalan, "manzil topilmadi").
"Incorrect email or password"	Emailni tekshiring (katta harflar ahamiyatsiz). 10 urinishdan keyin 15 daqiqa kuting yoki parolni tiklashni so‘rang.
"This account is disabled"	Administrator bilan bog‘laning.
Boshlashda "Exam not found"	Avval kirish kodi bilan qo‘shiling.
"This exam must be taken in the … app"	Professor faqat ma’lum ilovaga ruxsat bergan (masalan, Windows). O‘sha ilovadan foydalaning.
Android: "App pinning is not active"	**Pin again** ni bosing. Telefonda mahkamlash o‘chiq bo‘lsa: Sozlamalar → Xavfsizlik → Ilovani mahkamlash.
Windows SmartScreen o‘rnatuvchini to‘sib qo‘ydi	*More info* → *Run anyway*.
Ilova noto‘g‘ri serverga ulanib qolgan	Bosh ekran → **Change server** → **Reset app** (Android) yoki universitet bergan manzilni kiriting.

10. Ingliz tili amaliyoti

Bosh ekrandagi **English practice** IELTS speaking, writing, reading va listening amaliyotini ochadi, ball (band) darhol chiqadi. Siz o‘sha hisob bilan kirgan bo‘lasiz. Ko‘nikma va darajani tanlang (**Standard**, **Hard**, **Very hard**). **Exam** belgili topshiriqlar bir marta topshiriladi va natija o‘qituvchi e’lon qilganda ko‘rinadi.

Ingliz tili amaliyoti

11. Ko‘p beriladigan savollar

Telefon va noutbukdan foydalansam bo‘ladimi? Ha, bitta hisob bilan, lekin har bir imtihonni bitta qurilmada topshiring.

Ilova ekranimni yoki kamerani yozib oladimi? Yo‘q. U faqat 7-bo‘limdagi hodisalarni qayd etadi.

Imtihon oxirida internet uzildi. Uzilishdan oldin saqlangan javoblar saqlanadi; vaqt tugaganda imtihon ular bilan avtomatik yuboriladi. Professorga ayting.

Imtihonni ikki marta topshirsam bo‘ladimi? Yo‘q. Texnik muammo bo‘lsa, professor uni qayta ochishi mumkin.
